

CHARITY REQUESTS

Please review the information provided below carefully before proceeding to contact Nottingham Forest Community Trust.

Nottingham Forest Community Trust is wholeheartedly dedicated to assisting local charities and community groups in their efforts to raise crucial funds and awareness for causes that hold significance for them. This support is extended through the contribution of official memorabilia from Nottingham Forest Football Club; however, please note that monetary donations are not within the scope of our offerings.

We are open to considering several applications from local charities exclusively. If your application pertains to a charity located outside of our local area, we kindly request that you refrain from submitting a request.

During instances of national charity events such as Children in Need, Sport Relief, or Comic Relief, the club may decide to support these respective causes. As such, we kindly ask that you do not submit requests for fundraising related to the events.

For the purpose of safeguarding against fraudulent activities, we may find it necessary to collaborate with other football clubs to authenticate certain requests. This measure is implemented to ensure the protection of genuinely charitable organisations that could potentially suffer losses due to fraudulent practices.

If you believe your circumstances align with the criteria for donation eligibility, we invite you to contact us by emailing community@nottinghamforest.co.uk
